1.	<p>KM 06 Trailer Jack</p> <p>Height 950 – 1250 mm Weight 36 kg Strength 500 kN Painted or galvanized</p>	 A technical drawing of a trailer jack. It features a central vertical shaft with a handle at the top and a base with two diagonal legs forming a triangular shape. The drawing is a side view with a vertical centerline.
2.	<p>KM 07 Mafi Jack</p> <p>Height 370 – 850 mm Weight 15 kg Strength 500 kN Painted or galvanized</p>	 A technical drawing of a Mafi jack. It has a central vertical shaft with a handle at the top and a base with two diagonal legs. The drawing is a side view with a vertical centerline and a hatched base.
3.	<p>KM 08 Railway Jack</p> <p>Height 760 – 1300 mm Weight 37 kg Strength 200 kN Painted or galvanized</p>	 A technical drawing of a railway jack. It has a central vertical shaft with a handle at the top and a base with two diagonal legs. The drawing is a side view with a vertical centerline. A dimension line labeled 'H' indicates the height from the base to the top of the handle. There are also small letters 'a' and 'b' near the base.

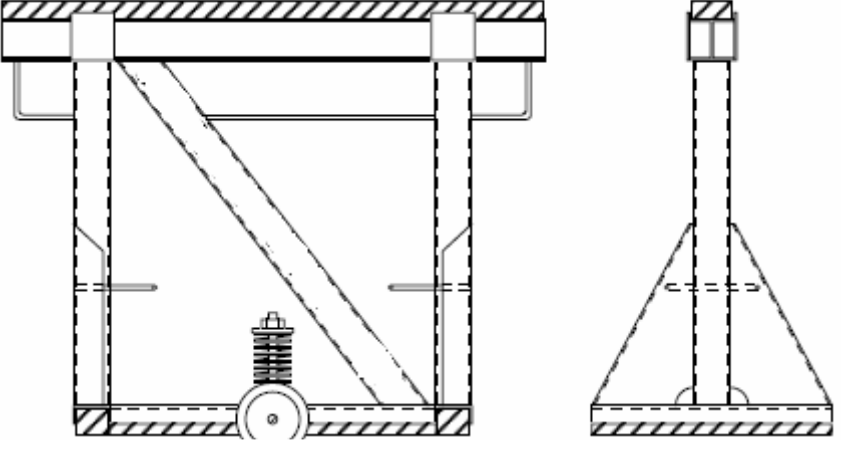

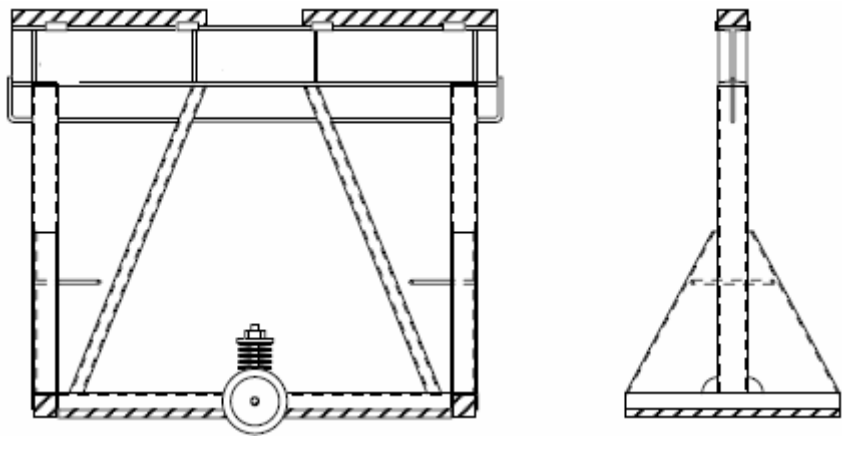

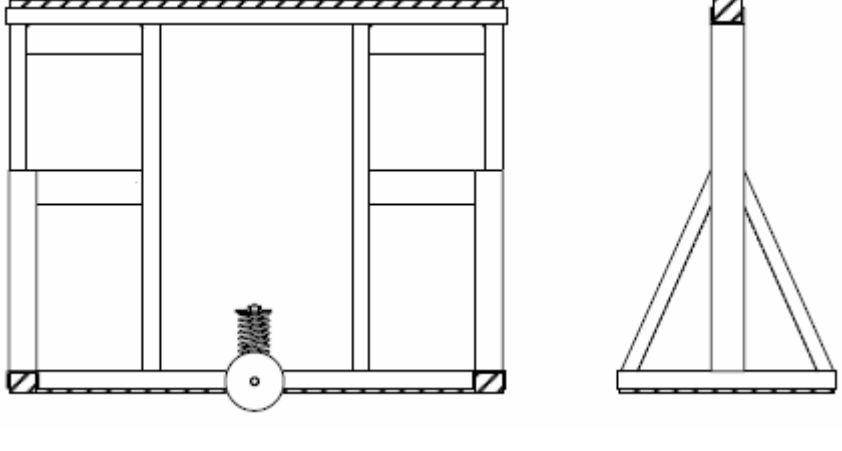

All products – workshop certificate (class certificate upon request)
